

# Lakshay Singhal

+91-9917682528 | [lakshaysinghal2909@gmail.com](mailto:lakshaysinghal2909@gmail.com) | [lakshay-singhal01](https://www.linkedin.com/in/lakshay-singhal01) | [Lakshaysinghal01](https://github.com/Lakshaysinghal01)  
**Education**

**Dr. A.P.J Abdul Kalam Technical University (Sunderdeep Engineering College)** September 2021 - August 2025  
*Bachelor of Technology in Computer Science and Engineering | CGPA: 7.44* Ghaziabad, Uttar Pradesh

**L.N. Public School, Hapur** March 2020 - March 2021  
*Intermediate | Percentage: 78.2%* Hapur, Uttar Pradesh

## Experience

**Associate Executive – NVIDIA (via Randstad Digital)** Oct 2025 – Present  
*Remote – Pune, India*

- \* Performed data cleaning, annotation, and validation on large datasets using NVIDIA's internal tools.
- \* Identified and corrected data issues such as duplicates, inconsistencies, and missing values to ensure high-quality datasets for workflows.
- \* Collaborated with engineering and QA teams to resolve data-related issues, improve labeling accuracy, and ensure smooth workflow execution.
- \* Maintained documentation of data validation procedures, quality standards, and recurring workflow processes.

**Data Analyst Intern – Dwayo Technologies** Mar 2025 – Aug 2025  
*Remote – Gujarat, India*

- \* Wrote and optimized SQL queries to extract, transform, and analyze large datasets.
- \* Applied basic statistical methods and Python libraries to identify patterns and present findings.
- \* Enhanced Power BI dashboards, reducing manual reporting effort by 30% and improving data accessibility.

**Intern – AICTE-IBM SkillsBuild Program** Jan 2025 – Feb 2025  
*Edunet Foundation* Remote, India

- \* Worked with Java, Python, SQL, and Git to build solutions for cybersecurity challenges.
- \* Completed a 4-week internship under IBM SkillsBuild, developing a project to address real-world threats.

## Projects

**NextStep – AI-Based Career Guidance System** | Python, SQL, JavaScript etc [GitHub](#) | [Live Demo](#)

- \* Designed and developed backend logic using Python and SQL following SDLC best practices.
- \* Bridged the gap between academic qualifications and career opportunities, impacting **1,000+ students**.
- \* Designed reporting and analytics logic that improved decision-making for **200+ active monthly users**.

**Face Recognition Attendance System** | Python, JavaScript, React, SQL [GitHub](#) | [Live Demo](#)

- \* Built a real-time attendance system using **Python, SQL database**, React, and JavaScript.
- \* Improved system accuracy and reliability through structured debugging, testing, and security enhancements.

## Technical Skills

**Programming Languages:** Python, Java, JavaScript, SQL, HTML, CSS.

**Frameworks & Tools:** Power BI, REST APIs, Databricks, AWS, MS Excel, AI/ML Fundamentals, Google Workspace.

**Core Concepts:** Object-Oriented Programming (OOPs), Data Structures & Algorithms, SDLC, DBMS, Operating Systems.

**Soft Skills:** Problem-Solving & Strong Communication Skills, Analytical & Critical Thinking, Project Coordination skills.

## Achievements & Certifications

- Completed Information Security Awareness Training at NVIDIA.
- Certified in Tata Imagination Challenge 2024.
- Certified in the Asia AI Odyssey Challenge by Microsoft.
- Successfully completed a Python Programming Training Program by Infosys.
- Solved Data Structures and Algorithms problems across platforms.
